

#2 OLS CA SUPPLE-LICKS EXTREME BIO

CANADIAN REG. #621169

SUPPLEMENT FOR BEEF CATTLE

The best high energy, all natural protein supplement on the market. This performance-packed supplement is designed for the roughest conditions, dry grass pasture, hay and low quality forage. Safe for horses, this protein and energy pack also contains major and chelated trace minerals, concentrated vitamins and extra AMAFERM. Also includes BIO-MOS to aid in the building of the immune system. BIO-MOS has been proven effective on E-coli and Salmonella, where pharmaceuticals have failed. Ideal for replacement of cubes, cake, or pelleted rations. Provide plenty of fresh water and free choice salt.

FEEDING RECOMMENDATIONS:

165-220 grams (6-8 ounces) per head per day. Product should be available continuously. Locate tubs near a source of water, salt, or loafing areas. On open range locate tubs where animals congregate near gaps or along trails. Variables in consumption could be temperature, humidity, type of animal, animal size, stage of production and animal health. The quality, source, availability of roughage and/or light grain may also affect consumption. Measure product upon first introduction to figure consumption. Large Tub holds approximately 3.2 kg/cm (18 lb/inch). Increase consumption by decreasing number of head of adding another tub. To reduce consumption, increase number of head or move tubs away from congregating areas. If this fails, remove a tub. Always provide a fresh, clean source of water and free choice salt.
