

#5 OLS CA WEANED CALF STARTER

CANADIAN REG. #621170

SUPPLEMENT FOR CALVES

This protein, energy, concentrated vitamin, major and trace mineral package is formulated for use on young and growing beef cattle. Can also be used in place of starter pellets. Do not feed to sheep.

FEEDING RECOMMENDATIONS:

165-330 grams (6-12 ounces) per head per day. Product should be available continuously. Locate tubs near a source of water, salt or loafing areas. On open range locate tubs where animals congregate near gaps or along trails. Variables in consumption could be temperature, humidity, type of animal, animal size, stage of production and animal health. The quality, source, availability of roughage and/or light grain may also affect consumption. Measure product upon first introduction to figure consumption. Large Tub holds approximately 3.2 kg/cm (18 lb /inch). Increase consumption by decreasing number of head of adding another tub. To reduce consumption, increase number of head or move tubs away from congregating areas. If this fails, remove a tub. Always provide a fresh, clean source of water and free choice salt.

#5

Available in 45.5, 91, 113 kg
(100, 200, 250 lb) sizes.

INGREDIENTS

Beet Molasses, Corn Distillers Grains w/ Solubles Dehydrated, Diatomaceous Earth, Monocalcium Phosphate, Sunflower Meal, Vegetable Oil, Magnesium Oxide, Calcium Carbonate, Zinc Oxide, Zinc Sulfate, Zinc Methionine Complex [Reg No. 990583], Availa 4 [Reg No. 982083], Copper Sulfate, Dehydrated Aspergillus Oryzae Fermentation Extract, Cobalt Sulfate, Sodium Selenite, Manganous Oxide, Ethylenediamine Dihydriodide, Potassium Iodide, Vitamin A, Vitamin D3, Vitamin E, Dried Lactobacillus acidophilus fermentation product, Thiamine Mononitrate, Biotin, Folic Acid, D-Pantothenic Acid, Pyridoxine Hydrochloride, Vitamin B12, Riboflavin, Ascorbic Acid, Niacin, Menadione Dimethylpyrimidinol Bisulfite and Ethoxyquin.
